

QUOTATION

Interchangeable Cyclops-7 Logger

The Cyclops-7 Logger is a logging device able to receive a Turner Designs Cyclops-7 sensor. This logger is the interchangeable version, which allows for multiple Cyclops-7 sensors to be used with one logger. However, the logger can only operate with one sensor at a time. The logger takes measurements at a variety of sampling rates, set by the customer, and stores them to an internal SD card. Each measurement includes the Cyclops-7, temperature, time & date, as well as gain. The Cyclops-7 Logger is a self contained unit with a diameter small enough to log within bore holes and other smaller diameter research spaces. Data are offloaded to a computer via USB card reader for easy viewing and analysis. Sensors include blue green algae, CDOM/FDOM, Chlorophyll, Crude oil, Fluorescein Dye, Optical brighteners, Tryptophan, Refined fuels, Rhodamine WT dye, and Turbidity. Data visualization software is provided with each purchase.

QUOTE # Q150106-3

6-Jan-15

We are pleased to offer the following quote for an Interchangeable Cyclops-7 Logger.

Please send orders to sales@pme.com

Requested Items				
Description	Part Number	Price (USD)	Qty	Extended Price (USD)
Cyclops-7 Logger w/ABS Guard				
Quantity 1 to 5	7287	\$ 1,750.00	1	\$ 1,750.00
Quantity 6 to 10	7287	\$ 1,625.00	0	\$ -
Quantity 11 to 20	7287	\$ 1,495.00	0	\$ -
Cyclops-7 Sensor (Uncalibrated)				
Chlorophyll Optics (2100-000-C)	7380	\$ 1,875.00	0	\$ -
Rhodamine WT Optics (2100-000-R)	7381	\$ 1,875.00	0	\$ -
Fluorescein Optics (2100-000-F)	7382	\$ 1,875.00	0	\$ -
Phycocyanin Optics (Freshwater - 2100-000-P)	7383	\$ 1,875.00	0	\$ -
Phycoerythrin Optics (Marine - 2100-000-E)	7384	\$ 1,875.00	0	\$ -
CDOM/FDOM Optics (2100-000-U)	7385	\$ 2,125.00	0	\$ -
Crude Oil Optics (2100-000-O)	7386	\$ 2,125.00	0	\$ -
Optical Brighteners Optics (2100-000-B)	7387	\$ 2,125.00	0	\$ -
PTSA Optics (2100-000-A)	7388	\$ 2,125.00	0	\$ -
Refined Fuels Optics (2100-000-G)	7389	\$ 5,925.00	0	\$ -
Tryptophan Optics (2100-000-L)	7390	\$ 4,950.00	0	\$ -
Turbidity Optics (2100-000-T)	7391	\$ 950.00	0	\$ -
Required Items				
Plotting Software	7241	Included	1	Included
Communication cable/ USB to serial adapter	7247/6849	\$ 35.00	1	\$ 35.00
Optional Item				
Stainless Steel 316 Sensor Guard	7214	\$ 115.00	0	\$ -

Recommended Items					
Solid Secondary Standard (2100-900) (Chlorophyll, Rhodamine, Fluorescein, Phycoerythrin, Phycocyanin only)		7336	\$ 350.00	0	\$ -
UV Solid Secondary Standard (2100-904) (Crude Oil, CDOM/FDOM, Tryptophan, Refined Fuels, Optical Brighteners only)		7337	\$ 675.00	0	\$ -

Thank you!
